

20131204 - Dog Faeces in Children's Sand Pit

Whilst playing in the sand pit at the play area in Tile House Lane, a young child has been covered in dog faeces. Parents and friends have asked me to warn anybody taking children to the play area, of the danger present in using this particular feature. On other occasions, other unsavoury material has also been found. Please pass on this warning to friends, relatives and neighbours.
