

CENTRAL HEATING OIL??

Are you a member of the area oil buying group? It costs nothing to join and there are no fees to pay at any time. The only stipulation is that you must have an e-mail address (or access to one via a kind neighbour/the boss?). You just pay for the oil you order at the preferential price negotiated on your behalf, which will be lower than the price you can get, as a result of our bulk buying.

In the 15 years since we started in Feb'01 we have ordered nearly 1.8 million litres at a saving, on average, of about 5p per litre on what price would be paid by an individual order.

That's a saving of £90,000 for club members or £50 on an order of 1000 litres. Order as much or as little (minimum 500 litres) as you want, at specified order dates.
