Crime Prevention Advice

Illusionist

Most burglars are opportunists, they leave home with the intention of committing the crime, but their target has yet to be identified. Take away that first attraction and you do not become that target. First attraction: - open or insecure gates or ready access to the rear of the property, overgrown shrubs that conceals the front door, insecure properties, lack of obvious security like good locks (with a PVCu door etc. have you locked it correctly i.e. lift the handle and turn the key or thumb turn, and if replacing the lock cylinder look for a British Standard TS007 three star Europrofile replacement) and an intruder alarm is a good deterrent.

Become an illusionist make your home appear occupied even when you are out, a burglar is more than likely to only see your home in one moment in time. Simple things like lights on timers and “Fake TV” for the evenings, you can now even get a timer that fits over your light switches (search on the internet for light switch timer). During the day leave a radio on, boots outside the back door, vacuum cleaner out with the lead going out of sight (not plugged in though), newspaper over the arm of the chair with a drink on the table and a pair of spectacles, the list goes on. Don't leave garden tools out in the garden though or you may find the burglar uses them, lock them securely away in a secure shed or garage (use a shed alarm too).
